Creating a Positive Learning Climate

The purpose of this session is to offer guiding principles for creating an engaging, supportive and challenging learning environment in clinical settings.

Objectives

By the end of the session, faculty members will be able to:

- Define learning climate
- Practice key strategies for creating a positive and welcoming learning climate

Strategies for Creating a Positive Learning Climate

1. Exhibit enthusiasm for teaching and patient care.

Large Group Discussion

Observations from Role Play

2. Welcome learners and respect diversity

Large Group Discussion

Observations from Role Play

3. Model HUMILITY in Inquiry and Coaching

Large Group Discussion

Observations from Role Play

4. Balance SUPPORT and CHALLENGE

Large Group Discussion

Personal Goals for Setting and Communicating Goals and Expectations

I would like to try....

1. _____

2. _____
